Shoreside Exhibitors:

Raymarine UK	1	Island Photo Centre	10	Corsair Marine (Multihull World).....	19	Freedom Boat Club.....	27
Aquadeck	2	UKSA	11	PSA Prime Marine	20	Predator Batteries.....	28
Permatek International.....	3	Elite-Teak	12	Fischer Panda UK.....	21	National Liquidators.....	29
British Boating Magazine.....	4	WWF-UK.....	13	CubeX Industries.....	22	Onboard Energy	30
Ship Shape Bedding.....	5	Parker Adams Boat Sales.....	14	VETUS	23	Bruntons Propellers	31
B&G, Lowrance & Mastervolt	6	Peter Leonard Marine	15	Flexiteek International.....	24	Maritime UK Solent.....	32
UK Boat Transport	7	Suzuki Fishing Team.....	16	iNETIC.....	25	Cunningham Marine.....	33
The Gallery SW3	8	Vanclaes Boat Trailers	17	Yacht Solar Arches.....	26	Greenpeace UK.....	34
Sailing Holidays	9	BHG Marine	18			ePropulsion.....	35

78

79

On-Water Exhibitors:

RS Electric (Urban Truant)	1	Hanse (Inspiration Marine).....	44
Highfield (Urban Truant).....	2	Beneteau (Ancasta).....	45-49
Fontaine Pajot (MiCATS).....	3	Hallberg-Rassy (Transworld Yachts).....	50
Lagoon (Ancasta).....	4	Delta (SE Yachts)	51
Neel Trimarans (MiCATS)	5	Saffier Yachts (Williams Marine)	52-53
Bente (Small Yacht Company)	6	Jeanneau (Sea Ventures).....	54
Haines/Interboat (Val Wyatt Marine)	7-8	Finnmaster (Ideal Boats).....	55
Pearl Yachts	9	Saxdor (Ideals Boats).....	56-59
Rodman Boats (RBS Marine)	10-11	Hardy Motor Yachts (Raymarine Demo Boat).....	60
Nimbus (Nimbus Boats UK)	12-16	Dutchy Motor Launches (Cockwells).....	61
Dragonfly (Multihull Solutions)	17	Dufour (Universal Yachting).....	62-64
Arcona (SE Yachts)	18-19	Sea Ray (Marina Marbella UK)	65-66
Beneteau/Prestige (Ancasta).....	20-21	Nord Star/XO (MCC Marine).....	67-70
Fjord/Hanse (Inspiration Marine).....	22-25	Bayliner/Azimut/Beneteau (Bates Wharf)	71-74
Bavaria/Regal (Clipper Marine)	26-30	“Prolific” (OYT South).....	75
Sealine/RYCK (TBS Boats).....	31-34	Aquila/Absolute/Fairline (Approved Boats)	76-82
Nautitech (Key Yachting).....	35	Axopar (Axopar London Group).....	83-86
J/Boats (Key Yachting).....	36	Windy Boats (Saltwater Solutions).....	87
Sunseeker	37	RIB Shack Marine	88-90
TBC (Parker Adams Boat Sales).....	38	Jeanneau/Excess (Sea Ventures).....	91-93
Pantaenius	39		
Pardo (Argo Yachting)	40		
Galeon (Argo Yachting)	41-43

 EPROPULSION

Friday 9th May

12:00 – 12:15

Official Opening

The 2025 South Coast & Green Tech Boat Show will be officially opened by The Lord Mayor and Sheriff of Southampton, Cllr David Shields.

12:15 – 13:15

Press Briefing & Interviews

Following the official opening ceremony, members of the press are invited to a drinks and canapés reception, with briefings and interviews offering a first look at new boat launches and the latest in marine innovation, as well as the chance to meet key exhibitors and industry leaders.

13:30 – 14:00

Navigating Boat Ownership: Expert Insights for Prospective Buyers

Join our panel of maritime industry experts as they provide essential guidance for those considering boat ownership. Hosted by Tim Mayer (MDL Marinas), this informative session brings together Joe Dalton (Salt), Simon Hedley (Pantaenius Insurance), and Andrew/ Jonathan (Parker Adams Boat Brokerage) to explore the critical considerations of purchasing a vessel.

Topics will include financial planning, insurance requirements, market evaluation, and practical advice to help you make an informed investment decision. Whether you're a first-time buyer or looking to upgrade, this session offers valuable insights to navigate the complexities of boat acquisition with confidence.

14:30 – 16:30

Maritime UK Solent Demos

Join us for a series of engaging demonstrations and talks from innovative Maritime UK Solent members, showcasing pioneering solutions in the marine sector:

Pixii Electric Boats – Charles Hall will introduce Pixii's cutting-edge electric yacht technology, offering a glimpse into the future of sustainable marine propulsion.

Anchoright – Quinton Watts presents Anchoright's award-winning anchor chain marking system, which took home the title of Start-Up of the Year. This practical innovation brings improved safety and efficiency to anchoring operations.

Salmon Marine – Joseph Salmon will showcase a revolutionary shock mitigation system for RIBs, developed in collaboration with the RNLI. Designed to reduce back injuries and enhance performance, the system has been described as the marine equivalent of 4x4 technology.

Enigma Fluid Conditioning Services – Mike Smyth discusses the benefits of electronic water descaling systems that reduce limescale build-up and extend the lifespan of metal components in marine pipework.

16:30 – 18:00

Maritime UK Solent Networking

An opportunity for members of Maritime UK Solent to meet up and discuss the latest innovations whilst enjoying hospitality.

18:00 – 20:00

South Coast & Green Tech Boat Show Exhibitor Mixer raising money for OYTS

A relaxed, friendly get-together for exhibitors and partners to network, chat, and enjoy some downtime after the first day of the show. The evening will be in aid of Ocean Youth Trust South, a charity that helps young people experience life-changing adventures at sea.

Saturday 10th May

11:00 – 11:30

Raymarine's Dame Award Winning Alpha Displays & New Smart Wind

Paul Childs of Raymarine will present their Alpha performance displays, Raymarine's most versatile marine data displays. High-bright touchscreen instruments with wide view angles offer excellent visibility from anywhere onboard. Alpha's extensive data dashboard options and widgets make critical sailing, navigation, and engine data easy to interpret at a glance. The Alpha Series won the prestigious Dame Award (Navigation & Communication category). Paul will also speak about Raymarine's Smart Wind transducer (RSW). The RSW mast head unit is a professional-level wind sensor designed for leisure sailors. The RSW transducer is engineered for simplicity and accuracy using an integrated 3D motion sensor and Raymarine Smart Wind™ technology to give every skipper a new level of sailing intelligence.

12:15 – 12:45

MDL's Green Innovator of 2025 Award

MDL's Green Innovator Award distinguishes products and services that are pioneering in sustainability, innovation and design. It is aimed at projects from both start-ups and established companies, and highlights suppliers who are making a special effort towards environmentally sustainable practices, products and services.

13:00 – 13:30

Anchor Smarter – Reinventing Chain Marking for Safer Boating

Join Quinton Watts, founder of Anchoright and lifelong boater, as he shares the story behind his award-winning anchor chain marking system – born from experience and frustration with fading, unreliable chain markers. Anchoring should be safe, simple, and stress-free for everyone onboard. That's why Anchoright developed a robust, long-lasting, and customisable solution for marking anchor chains, now tested in varied conditions from the Solent to the Arctic. Learn how this practical innovation improves safety, clarity, and ease of anchoring – and why it earned "Start-Up of the Year" recognition at the MUK Solent Awards.

13:45 – 14:15

When Things Go Wrong: Navigating Vessel Insurance Claims and Protection

Pantaenius Insurance presents an essential Q&A session for boat owners focused on managing the unexpected. This interactive discussion will address the crucial steps to take when facing marine incidents, the effective navigation of insurance claims processes, and understanding the role of surveyors in claim resolution. The expert panel will also highlight the importance of legal protection coverage and how it safeguards your interests. Designed for both new and experienced vessel owners, this practical session provides valuable knowledge to protect your maritime investment when challenges arise.

14:15 – 14:45

Powering the Future – Smarter, Greener Onboard System

Fischer Panda UK | Power Solutions has been delivering innovative marine power solutions for over 25 years. This talk will explore how the company's expertise is helping the industry transition to more sustainable, efficient onboard systems. From hybrid and electric propulsion to smart energy management, this session will highlight the latest developments and real-world applications across leisure and commercial vessels. Whether you're building new or upgrading existing craft, learn how Fischer Panda is supporting boatbuilders and owners with tailored, future-ready solutions that reduce environmental impact without compromising performance.

14:45 – 15:15

ePropulsion

ePropulsion has recently launched its latest innovation, the eLite electric outboard motor. The eLite, which has been created for the tender and smaller boating market, represents a new era in clean, quiet, and eco-friendly marine propulsion. The direct-drive motor and advanced design propeller deliver high efficiency with near-silent operation. With a focus on minimal maintenance and cutting-edge technology, this addition to the ePropulsion range raises the bar in electric boating standards.

15:15 – 15:45

PSA Prime Marine

Trust PSA Prime Marine to take care of every aspect of your yacht's maintenance with bespoke marine services individually tailored to your requirements. PSA Prime Marine Ltd has a combined 40+ years of experience working in the marine industry, logging in excess of 400,000 nautical miles. This includes skipping two Clipper Round the World yacht races, three years in the Antarctic, superyachts, deliveries, corporate sailing events and extensive yard time overseeing minor and major refit work.

16:00 – 16:30

Building Tomorrow – Sustainable Innovation with UHPC

Discover how CubeX Industries is redefining marine and architectural infrastructure with sustainable Ultra-High-Performance Concrete (UHPC). Based in Tunbridge Wells, CubeX crafts durable, low-maintenance solutions that balance strength, design, and environmental responsibility. From sea walls and living walls to the award-winning Sea-Hive tiles enhancing coastal biodiversity, CubeX's UHPC products withstand the harshest environments while supporting long-term ecological goals.

This talk explores how cutting-edge materials and bespoke manufacturing are shaping the future of resilient, low-carbon marine infrastructure – blending engineering with environmental care.

Sunday 11th May

11:00 – 11:30

Anchor Smarter – Reinventing Chain Marking for Safer Boating
